

DESIGNING YOUR LABELS

250ml Full Print Label Artwork Guidelines

Artwork Specifications

Label artwork should be supplied in a print ready format, made to the following dimensions and specification.

File: PDF

Size: 165mm x 55mm (cut line)

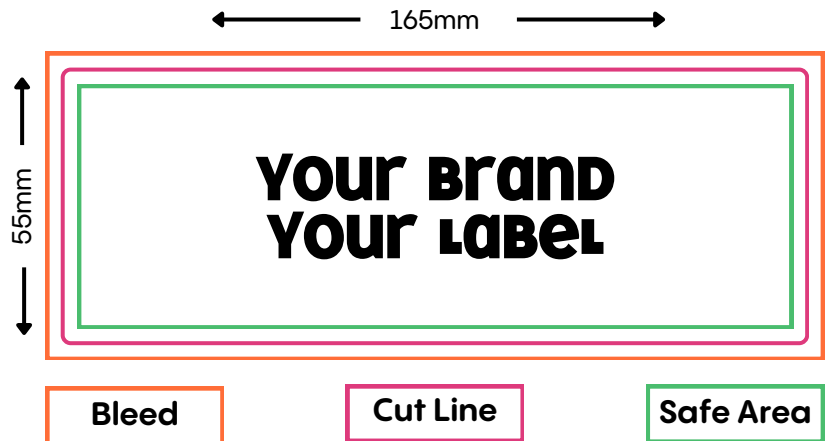

Resolution: 300dpi

Bleed: 3mm

Safe Area: 3mm

Colour Profile: CMYK

Minimum Font Size: 6pt

Sizing and Positioning

Your branding and any supplementary information can be placed anywhere on the label. You will find some example designs on the final pages of this document which may give some inspiration for your label layout and logo position.

Due to the label wrapping around the bottle, if you want to be able to see your logo without twisting the bottle, your logo should have a maximum width of 50mm.

Colours

The labels are a full colour print. There are no print limitations as to the number of colours you can use, or the area you can customise. We print onto white labels so if you do not want your label to have a white background, we suggest adding a background colour to the design.

Labelling Legislation

There is some information which must be included on your label to comply with labelling legislation. You can present this anywhere on the bottle. We have divided the information into compulsory (in bold) and optional.

You must include the information in bold:

- **250ml**
- **Store below 5°C and drink immediately**
 - Best before dates will be included in the packaging however as the end consumer may not see this, please advise to drink immediately.
- **Handmade in LS28 5LY by Brand Juice**
 - All food and drinks labels must contain a production address and company. If you do not want to have Brand Juice listed on the bottle, please follow the below wording.
 - 'Juices produced on behalf of [insert company name] in LS28 5LY'
- **Ingredients:**
 - An ingredient breakdown specific to each flavour must be included under the heading 'Ingredients'. The full breakdowns can be found on the following page.
- **Our kitchen handles oats, nuts and other known allergens.**

We strongly recommend including the following:

- Please recycle after use
- Shake well before opening

Need a Helping Hand With Your Labels?

We offer a basic label design service for £75 plus VAT

You choose from a selection of label layouts, send us your logo and we will do the rest. Perfect if you are short on time.
